

Applied Systems Thinking

Use the Power of Structure to Create Lasting Change

From the AST Library
Introduction Article1

"The Prophet of Unintended Consequences"

By Lawrence Fisher

Strategy + Business, Issue 40, Fall, 2005

In this article, Lawrence Fisher introduces Jay Forrester, the father of the field of research and analysis described as systems dynamics. Forrester's work opened the frontier of thought that has helped people to learn to live more effectively amid complexity applying systems thinking. The article is available at
